

Safety Data Sheet

Infosafe No™ 5APJ5 Issue Date : August 2015 Status : ISSUED

Product Name **SEPTONE CREAM CLEANSER HARD SURFACE CLEANER**

Not classified as hazardous

1. Identification

GHS Product Identifier SEPTONE CREAM CLEANSER HARD SURFACE CLEANER

Product Code HKCC5; HKCC750

Company Name ITW AAMTech (ABN 63 004 235 063)

Address 1-9 NINA LINK DANDENONG SOUTH
VIC 3175 AUSTRALIA

Telephone/Fax Number Tel: 1800 177 989
Fax: +61 2 9725 4698

Emergency phone number 1800 638 556

E-mail Address info@aamtech.com.au

Recommended use of the chemical and restrictions on use Designed for use as a liquid abrasive, hard surface cleaner.

Other Information Website: www.aamtech.com.au
*
Email: info@aamtech.com.au

2. Hazard Identification

GHS classification of the substance/mixture Not classified as hazardous according to the criteria of the Globally Harmonised System of Classification and Labelling of Chemicals GHS
Not classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for transport by Road & Rail

Precautionary statement – Prevention Wear protective gloves when using

Precautionary statement – Response IF SWALLOWED: rinse mouth. Do NOT induce vomiting.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
For advice, contact Poisons Information Centre (AUS 131 126; NZ 0800 764 766) or a doctor.

3. Composition/information on ingredients

Ingredients	Name	CAS	Proportion
	Calcium carbonate	471-34-1	15-30 %
	Water and other ingredients not considered hazardous	n/a	Balance

4. First-aid measures

Inhalation Not considered a feature of normal use.

Ingestion Give water to drink. DO NOT induce vomiting. Seek medical advice if effects persist.

Skin If irritation occurs seek medical advice.

Eye contact Irrigate with copious quantity of water for 15 minutes. Seek medical assistance if symptoms persist.

Advice to Doctor Treat symptomatically.

Other Information Use good occupational work practice.

5. Fire-fighting measures

Fire Fighting Measures Firefighters are to wear protective equipment appropriate to the principal fire hazard or the source of the fire. No special protective equipment required if this product is involved in a fire. This product is not flammable under the conditions of use and does not support combustion.

Suitable extinguishing media This product contains a substantial proportion of water, therefore use the extinguisher appropriate to the principal fire hazard or to the source of the

Not classified as hazardous

fire.

6. Accidental release measures

Spills & Disposal For small spills (5L or less), rinse with plenty of water. For large spills, contain using absorbent (soil, sand, vermiculite or other inert material). Prevent run off into drains and waterways. Collect and seal in properly labelled containers for disposal. Wash down remaining residues with excess water to sewer.

7. Handling and storage

Precautions for Safe Handling Ensure a high level of personal hygiene is maintained when using this product. That is, always wash hands before eating, drinking, smoking or using toilet facilities.

Conditions for safe storage, including any incompatibilities Keep containers securely sealed and protected against physical damage. Store in a cool, dry place away from direct heat and sunlight.

8. Exposure controls/personal protection

Biological Limit Values No biological limit values apply to this product.

Other Exposure Information Under normal conditions of storage and use, dusts of calcium carbonate will not be generated. However, any dusts generated while using this product will contain calcium carbonate. The inhalation of dusts may cause irritation to the respiratory tract.

Appropriate engineering controls No ventilation required under normal conditions of use and storage. Should dust be generated due to evaporation, provide adequate ventilation to maintain air concentrations below the exposure standard for inspirable dusts of 10 mg/m³.

Personal Protective Equipment Wear safety glasses and gloves when cleaning up large spills. Wear gloves if skin contact is likely for prolonged periods of time.

Hygiene Measures Wash off immediately if contact is made with skin or eyes. Removed soiled clothing and wash before re-using.

9. Physical and chemical properties

Form Liquid

Appearance Off white cream with mildly abrasive texture, lemon fragrance.

Boiling Point 100°C

Solubility in Water 64% w/v emulsifies in water

Specific Gravity 1.250 @ 25°C

pH 9.2

Evaporation Rate As for Water

Volatile Component 50% w/v

Flash Point Non flammable

Flammable Limits - Lower Not Required

10. Stability and reactivity

Chemical Stability Considered stable to heat and light. Store below 30°C. Keep out of direct sunlight. Keep containers closed when not in use.

Conditions to Avoid None known.

Incompatible Materials Strong oxidising agents.

Hazardous Decomposition Products During combustion, this product may produce carbon monoxide and other unidentifiable organic compounds.

Safety Data Sheet

Infosafe No™ 5APJ5 Issue Date : August 2015 Status : ISSUED

Product Name **SEPTONE CREAM CLEANSER HARD SURFACE CLEANER**

Not classified as hazardous

Hazardous Polymerization Will not occur.

11. Toxicological Information

Ingestion Mildly irritating, may cause nausea, mild stomach pain.

Inhalation Under normal conditions of storage and use, dusts will not be generated. However, it should be noted that calcium carbonate has an exposure standard as an atmospheric contaminant (airborne particulate) and that it may cause irritation to the respiratory tract if dusts are generated.

Skin Mildly irritating to the skin. Signs of irritation include redness, itchiness and eventually cracking of the skin. Irritation usually only occurs after prolonged, repeated skin contact and is due to the abrasive action on the skin of the calcium carbonate abrasive.

Eye Irritating to the eyes. Signs of irritation include redness, soreness and tear production. Calcium carbonate is a mild abrasive which may lead to scratching of the cornea and temporary irritation.

Chronic Effects Dermatitis may occur after prolonged, repeated skin contact and is due to the abrasive action on the skin of the calcium carbonate abrasive.

12. Ecological information

Ecotoxicity This product is not expected to have a high aquatic toxicity.

Persistence and degradability The organic components in this product are readily biodegradable when tested according to AS1792.

Environmental Fate This product contains 1% P. Detergents containing phosphorus contribute together with other sources of phosphorus to the eutrophication of many fresh waters. Algae are the first step in the food chain and a number of factors are needed to promote their growth. These factors are sunlight for photosynthesis, temperature, certain water conditions (turbulence) and nutrients like carbon, nitrogen and phosphorus. The use of phosphorus in complexing agents is still an environmental concern wherever sewage effluent is released untreated into freshwater recipients.

Bioaccumulative Potential None of the components of this product are expected to bioaccumulate.

Short Summary of Assessment of Environmental Impact At normal use levels, this product is expected to exhibit low toxicity towards aquatic organisms. However, the undiluted material should be prevented from entering waterways.

13. Disposal considerations

Waste Disposal Small quantities may be flushed to sewer (if permitted by local regulations) otherwise dispose via waste contractor.

Product Disposal Dispose of large amounts in a chemical dump according to local authority statutory requirements. For small amounts, wash the product to the drain with a large excess of water.

Container Disposal Rinse empty containers with an excess of water to the effluent system. The clean, empty containers are recyclable.

14. Transport information

Transport Information Not classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for transport by Road & Rail
Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea
Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air.

15. Regulatory information

Poisons Schedule Not Scheduled

AICS (Australia) All components listed
